DRUG ALBUM 2.0

FOR HEALTH CLINICS

UPDATED MAY 2022

1

e ISSN 2735-0541

FOREWORD

Assalamualaikum wbt,

Pharmacy Practice and Development branch has been evolving and this is evidenced through years of excellence in performance. Primarily focused on patient safety, we are responsible for the optimisation of drug therapy and prevention of medication errors.

Throughout the expansion of services, the Drug Information Service (DIS) committee under the Quality Use of Medicine Section has continually improve ways to share drug related information. The development of Drug Album 2.0 for health clinics focuses on drug identification in order to encourage prescribers make shared treatment-related decision with patients and ensuring pharmacists able to intervene drug related problems, altogether preventing medication errors.

I would like to take this opportunity to express my warmest congratulations to the Drug Information Service (DIS) Committee on the updated version of Drug Album 2.0 for Health Clinics for May 2022.

Thank you.

Datin Hasnizan binti Hasan

State Health Deputy Director (Pharmacy)

Pharmacy Services Division

Health Department Federal Territories of Kuala Lumpur and Putrajaya

FOREWORD

Warmest Greetings!

The highest thanks goes to all the team members' dedication and effort in completing this drug album with support from our superiors. The Drug Album 2.0 for Health Clinics is a compilation of all drugs available in our clinics' formulary in pictorial form. It has been updated throughout the years to aid our fellow healthcare professionals in identifying pills for patients to ensure the continuation of right medication especially for those who have multiple follow ups in different clinics.

Our hopeful aim with this drug album is to ensure safe medication is practiced in the healthcare services provided.

Thank you.

Tan Poh Jin

Drug Album Team Leader

Drug Information Service Committee

Health Department Federal Territories of Kuala Lumpur and Putrajaya
